

Rhonda Martin for Iowa Senate District 20

I'm running for elected office to protect our children's future. Our children deserve schools with enough funding and technology so they can compete in the global economy for the best jobs. Our children deserve inspired teachers that are not tired from working two jobs just to make ends meet. Our children deserve clean drinking water, healthy lakes for recreation and state parks that are not closed because there is no money to fix falling down infrastructure. Our children deserve leaders that put the welfare of **all** its citizens ahead of political ideologies and out-of-state special interest groups.

Good government does not come from a mind set of winning at all costs and closed-door deals. Good government comes from working together across the aisle and throwing out what is not working (privatized Medicaid). I will work for and with you to help all Iowans and find innovative ways to grow our Iowa economy.

Contact me today if you would like to join my team! Tell your friends to do the same!
