Thanks, Danaca. This is helpful. Could you also let me know how many people you have on the crew, and in terms of equipment, how many cameras will be used, and other production equipment so that we have the space to accommodate it.

Thanks,
Heather

Hi Heather,

Thanks for the help. For the Capitol building filming, I'll need to finalize the following:

- What time can we access the areas?
- Is there a specific location our film crew should unload?
- Where are we permitted to park?
- For inside filming, is there an area we can put equipment out of the view of the shot?
- Do we need an insurance waiver for filming at the Capitol?

In the meantime of tracking down the proper contact for the Lab, do you happen to have the address?

I'm also available anytime via my cell, 801.368.2242 but didn't want to put you on the spot for some of these questions that might need tracking down.

Cheers,

Danaca Buhler

Good morning, Danaca -- we're looking forward to seeing you next week. I can help make all of these connection points. I will get you Capitol clearance today. Indoors, we will likely shoot in the Governor's office. Outdoors, the west side of the building has garden terraces with a variety of sculptures, and a great view of downtown Des Moines. I'll be available to assist with anything you need at the Capitol on Monday.

I'll reach out to Scott Marler regarding the Des Moines test site and get you a contact person who will be on-site Monday, and I'll contact the lab this morning to get you a contact there. This lab is where Dr. Pentella and his team are located.

If you want to discuss any details today, feel free to give me a call. My office and cell numbers are provided in my signature line below. Otherwise, I will follow up later with addresses, contact names and numbers for each location.

Thanks much!

Heather

Hi Heather,

Sounds like we're on for interviews this coming Monday. I wanted to reach out and see if you could help point me in the right direction for a few logistic items.

Who can I work with to determine approved filming locations at the State Capitol Building (both inside & outside options in case Monday stays stormy as the weather is predicting)?

Secondly, David Elkington mentioned there's a testing site within 5 minutes of the Capitol Building. Do you know that location and who I could work to ensure approval to film B-roll there?

Lastly – we'd like to film some interviews at the lab that we're told is 1 ½ hour drive from the Capitol. Does Dr. Pentella work there? Do you know the main contact for this location to discuss similar logistics?

Thank you for your help!
